

Laptop Security Solutions

Benefits of Physical Notebook Security

- Cost effective
- Easy to install
- Tidy appearance
- Labour and time saving
- Acts as a deterrent
- Can be used in conjunction with Line Alarm Systems
- Ability to fit in with existing store displays and fixtures
- Reliable and durable

Prevent opportunistic theft of your notebooks by securing them with an effective physical security solution.

Leading Solutions has a range of physical security options that are perfectly suited to Laptops and Netbooks.

Whether used on their own, or in conjunction with our range of Line Alarm systems, Leading Solutions can provide you with peace of mind and security for all your high valued electronic devices.

SPOTLIGHT

Customers love to dream, hold, and test drive new things, and successful outlets are those who allow customers to enjoy their shopping experience to the fullest. The trick is to do this while discreetly guarding every item of stock.

'Live' display of products allows staff to focus on customer service, therefore providing a greater overall customer experience.

Customers can interact with the merchandise instantly eliminating the need of a staff member to open a display case or find a key to unlock the product.
